

A YES vote on 67 confirms that California can move forward with its ban on plastic grocery bags. It's that simple.

Don't be fooled by the deceptive campaign waged by plastic bag corporations from Texas and South Carolina, who claim they are looking out for our environment. Phasing out single-use plastic bags brings major benefits to California.

These bags kill wildlife, pollute our oceans, ruin recycling machines, and cause litter that is expensive to clean up.

Many local communities across California have already phased out plastic grocery bags, and a YES vote would continue this progress.

"Don't buy the industry spin! ... shoppers can avoid the 10-cent fee on paper or reusable plastic bags simply by bringing their own." - The Los Angeles Times editorial board

"Across California, small local grocery stores like ours support a YES vote on Prop 67. In our local community, we have a ban on single-use plastic bags that is working well. Our customers are bringing their own reusable bags, and are happy to do their part to reduce unneeded plastic litter. It's good for small businesses and consumers."

- Roberta Cruz, La Fruteria Produce
